SISTER REPUBLICS STATUTE AGREED UPON MUST BUY THE LAND

PROMOTION OF KNOWLEDGE AIM DIVORCE CONGRESS COMPLETES OF MINISTER BARRETT. LABOR AND ADJOURNS.

The promotion of knowledge in the United States relating to the Latin American republics is the end sought to be fostered through a new offer from Mr. John Barrett, American minister to Colombia, providing prizes for the best esays on the relation of the United States with the sister republics of North and South America, to be competed for by students of American colleges. A similar offer was made about a year ago by Mr. Barrett through President Nicholas Murray Butler of Co-

lumbia University. In a recent letter to President Butler Mr. Barrett refers to the former prize contest and comments as follows: "The result of that competition, which you duly announced, not only demonstrated beyond announced, not only demonstrated beyond question the practical value of such an effort to arouse interest in the subject, but also proved the lamentable ignorance that prevails generally throughout the United States among the rising generation of our citizens in regard to Central and South America."

America.

Minister Barrett makes announcement of his new offer in the following terms: "Desirous of doing all in my power to promote the study of the history, peoples, politics, resources and possibilities of our sister reresources and possibilities of our sister republics, and pursuant to my intimation when I offered the prizes a year ago, I now wish, through your kind co-operation, to provide for another competition of broader scope, for which you will please find inclosed my check for \$225. This may be divided, if you think wise, into three prizes, respectively, \$100, \$75 and \$50."

In his letter Minister Barrett gives ten different subjects, any one of which may different subjects, any one of which may be treated by the competitor. These themes are divided into two classes, the first of which bears directly or indirectly on the relations of the United States with the Latin republics, while the second is confined largely to the historical and political development of Latin America without reference to the United States.

List of the Subjects.

The first class, which may be termed political and economic, contains the following

The Monroe doctrine and its influence on the political and economic development of Latin America. The influence of the Panama canal on the

Latin America. Present conditions and future possibilities of the trade of the United States with South America.

commercial and political development of

The present material and economic prog-ress of South America. The practicability and utility of the proposed pan-American railway. second, or historical class, contains

the following: The influence and conditions that worked or the independence and establishment of the South American republics.
The influences and conditions that worked for the independence and establishment of the Central American republics and Mex-

The character and achievements of Bolidependence of northern South America.
The character and achievements of San
Martin as shown in the struggle for the
independence of southern South America.

—e conditions surrounding and circum-

stances influencing the overthrow of the empire and the establishment of the republic in Brazil.
Mr. Barrett suggests that - would be best to limit the essays to 10,000 words, but he leaves that, as well as the period over which the competition shall extend, the naming of the judges and other conditions

President Butler. STAMPS PRONOUNCED BOGUS.

Famous Counterfeit Case Recalled by Commissioner's Ruling.

The most famous conterfeiting case this ountry has ever had is recalled by a decision just made by the commissioner of internal revenue. It is to the effect that the stamps on certain cigars that have been in the custody of the government seven years are counterfelt and not genuine.

W. M. Jacobs manufactured the cigars at Lancaster, Pa., and the stamps were printed Jacobs had been a cigar manufacturer of high position and wealth. He conceived otion that he could make millions by counterfeiting the internal revenue stamps

and using them on his cigars.

He went to Philadelphia, where he found Arthur Taylor and Baldwin Bredell, whom Arthur Taylor and Baldwin Bredell, whom he got to engrave the plates for the stamps, and had Kendig put up an establishment for their printing. The stamps were so perfect that government officials for months never suspected them. The stamps passed under the eyes of everybody without a thought of wrong. About this time there was discovered in the treasury in this city a splendid counterfeit of what was known as the Monroe head \$100 certificate.

By the merest accident it was detected by treasury experts. It had safely passed

treasury experts. It had safely passed through the subtreasury at Philadelphia and through business houses and national banks. The discovery of the note created men in the service declared the note genu-ine. Secret service officers were at once put to work, the best men in the service being employed.

They discovered that twenty or twenty-five more of the notes were in the hands of banks in Philadelphia. A swift investi-gation revealed that the notes were being put out by Taylor and Bredell. They were promptly arrested. Their arrest led to the discovery of Jacobs' crime, as the men had engraved his stamps. But for the quick arrest of all concerned the country would have surely been flooded with a high-class counterfeit of the worst sort.

Jacobs and Kendig, the central figures of the affair, were each sentenced to twelve years in prison. Only recently their sen-tences were commuted and they are free Taylor and Bredell were sentenced to seven years each. They have been free a long time and are following their trade as peaceful citizens.

At the time of the arrests many thou-

sands of cigars belonging to Jacobs were confiscated, and he has been endeavoring to have those containing genuine stamps collector of the Pittsburg district recently examined the stamps on 10,000 cigars, had his experts to likewise examine them, and all reported some doubt as to their being

counterfeit.
The deputy sent a sample box to the Washington office, and here the stamps were pronounced counterfeit. The commissioner of internal revenue proceeds to ex-

COURT HOLDS DR. WILLIAM J. STEWART TO CONTRACT.

The States to Be Asked to Approve Law Framed by Dele-The congress on uniform divorce laws,

which began its sessions in this city last Monday morning, adjourned last night after having completed all of its prelimnary work in the constructing of a statute to be submitted to the various states and territories for adoption by their legislatures. When the committee on resolutions has completed its work of embodying the resolutions passed by the congress nto such a statute Gov. Pennypacker will ssue a call for another meeting for the purpose of approving the measure. It is aid that an effort will be made to finish his work by August next, in time to permit reassembling at St. Paul, Minn., when he convention of the American Bar Asso

Additional Resolutions.

Several additional resolutions were adopt ed late yesterday afternoon and last even-

ng. They were as follows: "Each state should adopt a statute empodying the principle contained in the Massachusetts act, which is as follows: 'If an inhabitant of this commonwealth goes into another state or country to ob-tain a divorce for a cause which occurred here while the partles resided here, or for a cause which would not authorize a divorce by the laws of this commonwealth, a divorce so obtained shall be of no force or effect in this commonwealth."
"That while the congress does not regard

the consideration of the marriage laws as within the purview of the call under which it assembles, it desires to express its earnest hope that some suitable effort will be made by some other body to secure uni-form marriage laws, and especially a uni-form marriage license law; and it would respectfully recommend the matter to the consideration of the commissioners on uniform state laws."

A resolution was also adopted providing that "fraud or collusion in obtaining or attempting to obtain divorces should be made statutory crimes by the criminal

Probably no delegate to the congress was more interested in the proceedings or showed a better grasp of the idea that than Rev. Caroline Bartlett Crane of Michigan. She is a Unitarian minister, and whenever she spoke the strictest attention was paid to her words, especially when upon one occasion she made a plea for the sanctity of the home and for the consideration of the problem aside from the influence of the authority of any church.

Plea in Extenuation.

At the evening session last night she expressed surprise that so few women had been appointed as delegates to the congress, which, she said, was to deliberate upon a matter of the most vital importance to women. She closed her remarks by adding: "I wish to say that we believe every man n this congress has at all times shown the most sincere desire to safeguard women. Every woman here has the pro-tection of the home at heart, and if any ndiscreet words have been spoken I know hat the woman who uttered them has sufered more than any one else

Her voice trembled as she finished and Her voice trembled as she hillshed and tears came into her eyes.

She had reference to the incident earlier in the week when Miss Fanny Leake Cummings was asked to discontinue her remarks on account of her references which were considered "offensive" by some present. Miss Crane was most anxious to exent. Miss Crane was most anxious to ex-cuse her sister delegate, who had manifested an "inexperience in parliamentary custom," as Miss Crane has since put it, "but meant well."

USED AUTO FOR FRIENDS.

Lee Crump in Police Court Charged With Violating Law.

Policeman McQuade of the second preinct, saw a very handsome electric machine running along the street with several colored people in it Wednesday evening. In the rear of the machine he noticed there was no light and that gave him a reason for stopping the auto. He found upon investigation that Lee Crump was operating t and that he had some of his friends in it. and there was no rear light. For violations of those two regulations, he was arrested and locked up in the second precinct. It developed that the machine was owned

y William Hibbs, the stock broker, and had been sent from his home at 18th and streets to the garage at Connecticut avenue and L street northwest. Crump thought he would give some of his friends Crump's friends are not as numerous as

When the two cases came up for trial in the Police Court yesterday. Judge Mullow-ny sentenced Crump to pay a fine of \$10 or to spend thirty days on the farm.

Justice Stafford of the Supreme Court of the District of Columbia, has signed a decree in the case of Lewis A. Griffith, executor of the estate of Alfred W. Ball o Prince George's county, Md., against Will iam M. Stewart of this city, directing the defendant to accept a deed from Dr. Grif fith for 288 acres of land in Prince George county, Md., and to pay the latter therefor at the rate of \$40 per acre and costs of the suit in addition. The case arose on a bil for specific performance of a land contract made between the parties in June, 1903, at the time of the oil excitement in Pri: • George's county, Md., was at its height owing to the boring of a well for oil by the Maryland Oil Development Company near

Centerville. The suit which was instituted by Attorneys Charles H. Merillat and William E. Ambrose of this city, and J. K. Roberts and George R. Gaither of Maryland, alleged that in June, 1903, Dr. Stewart entered into an agreement with Dr. Griffith as agent for Alfred Ball whereby Stewart agreed to buy the Ball land at the price of \$40 an acre, the land to be surveyed and paid for at the ascertained acreage. Under the terms of the agreement, it was averred, Dr. Stewart paid \$500 down and was to pay one-half of the balance purchase price within five months and to give a mortgage secured on the farm for the balance of the purchase money. Two days before the fifth month was up Alfred Ball died, and thereafter Dr. Griffith, acting under the advice of his counsel of this city and Maryland, petitioned the orphans' court of Prince George county for an order authorizing him to complete the contract entered into, which order, it is set forth, was issued. He then demanded of Dr. Stewart that he com-plete the purchase, but the latter, it is

alleged, refused.
A bill of complaint filed by Dr. Griffith alleged that the defendant refused to com ply with the agreement for the reason the oil excitement had died away and he desired to avoid the contract. The answer of Dr. Stewart denied that the contract was a contract of purchase to sell, and alleged that, on the contrary, it was but purchase of an option, and that he had right to forfeit the \$500. It was further claimed that the land was worth at the outside not more than \$20 per acre, that a good title could not be given without the agreement of all the heirs of the decedent, who were widely scattered, and that Dr. Griffith, when he made the contract, un-derstood that, although the agreement was signed by Dr. Stewart, the latter was act ing merely as agent for the Maryland Oil

Development Company.

A large amount of testimony was taken and a considerable argument had before Justice Stafford on the legal questions in volved. After considering the case for several months Justice Stafford announced his decision in favor of Dr. Griffith, and passed a decree, as stated, requiring Dr. Stewart to abide by the contract.

30 HURT IN EXPLOSION.

Premature Discharge of 200-Pound

Thirty persons were hurt, three of whom will die, by the explosion at Pittsburg of a 200-pound charge of dynamite, which was struck by a steam shovel at the Carnegie Steel Company's plant at Duquesne. The steam shovel was removing a slag pile that had been previously broken up with the explosive. During the breaking up process one of the charges of dynamite was lost, and it is this one that exploded today.

The big steam shovel was plowing its way into the slag, when there was a mighty roar, the ground trembled, and the shovel structure was lifted into the air, parting and breaking up, to fall to the ground a mass of twisted metal and splintered timber. Sharp, flinty pieces of the slag were scattered in every direction, and added to these were pieces of splintered timber from the shattered shovel, which were hurled among a hundred Hungarian laborers by the bursting of the boiler.
When the rain of timber and slag had

eased, the injured lay about the ground, some calling for help, while others attempted to assist their neighbors. All were cut by the slag or scalded by escaping

Harry O'Brien, thirty years old, a crane nan, was scalded so badly he cannot live while two of the Hungarians are in a like condition. Six others were found to be in a serious condition and were taken to a McKeesport hospital. Twenty others, who were more or less seriously injured, had their wounds dressed and were taken to Joseph Mitchell, a timekeeper in a small

hut about 100 feet away, was knocked senseless by a piece of timber that was hurled against the side of his shelter. His head was slightly cut.
A street car that was passing at the time

of the explosion was bombarded, causing a panic among the passengers, but no one was injured. The car was not damaged.

Mrs. William J. Crossthwalte of Buffalo N. Y., suffered a fatal fracture of the skull at Bay City, Mich., yesterday by jumping from a closed carriage when the horses started to run away. Her death ensued

A WOMAN TRAIN WRECKER.

Confession of Alleged Accomplice at Tiffin, Ohio.

Mrs. Cora Carpenter was arrested yesterday at Tiffin, Ohio, accused of wrecking a Pennsylvania freight train a week ago Wednesday night, and attempting to wreck a fast passenger train on that night and the night following. Mrs. Carpenter is a member of a prominent family, and is beautiful woman, highly educated and apparently refined. She is supposed to have a mania for causing and witnessing wrecks The authorities declare it was a miracle that the fast train, crowded with passen gers, was not wrecked on both the attempts to ditch it.

to ditch it.

Grover Bachman, aged twenty years, who was arrested yesterday, today confessed that he and Mrs. Carpenter weeked a freight train last week, but that its unexpected arrival prevented the loss of as many lives as they expected.

The plot, as outlined by Bachman, was that together they would wreck the train, and that when the horror of the catastrophe had caused a large reward to be of

phe had caused a large reward to be of-fered, Mrs. Carpenter would tell on him. He was willing to serve a year or so in the penitentiary, he says, and after that was over the two had planned a life of ease, Mrs. Carpenter was questioned by the police and other officials for a long time, but she did not admit the crime.

IRELAND ON AMERICA.

Archbishop Tells of Country's Mission in the World.

Archbishop Ireland of St. Paul addressed 15,000 persons in Kansas City last night on "The Republic of Washington." United States Senator Warner was chairman, and introduced the archbishop...

"Democracy has won in America, and through America it has won in the whole world," said the speaker. "America is truly the providential nation in this new era of the world's history. Its mission is to prepare the world, by example and moral influence, for the universal reign of human liberty and human rights. America does not live for herself alone; she holds in her keeping the destinies of humanity.

"Even in Washington's day the spirit of America, borne to their homes by the sol-dlers of Lafayette and Rochambeau, hast-ened the revolution in France. Meanwhile other countries of Europe were influenced by the example of America. Democracy is

gradually, but surely, leavening their in-"And far beyond Europe does democracy speak. In Japan a representative parliament divides the supreme power with the once delified mikado, while China and Persia are hastening to adopt a similar form of government. And wherever democracy reigns, America reigns; for America was democracy's first home, and it is from the fullness of its life in America that it has

JEALOUSY THE MOVING CAUSE. James Davis and Wife Fined \$5 Each in Police Court.

spread its charms across seas and oceans to the furthermost ends of the earth."

Jealousy of her husband caused trouble between James and Eliza Jackson at their home, at 1118 3d street southwest, Wednesday evening. The result was that they were both arrested, and charges of destroying private property and of disorderly conduct were filed against them. Judge Mullowny in the Police Court yesterday fined them \$5 each, in default of which the family hearth will be moved to the farm for fifteen days. "What was the trouble between you and your husband?" questioned Judge Mullowny of the wife.

"He had a letter, and he wouldn't let me see it," she replied. "And you thought it was from some other girl?" "Yes, sir. And I didn't want him to be

getting letters from other girls," continued the wife. "You love him, don't you?" Silence reigned supreme after this inquiry.
"You musn't be jealous of your husband. You must believe everything he tells you," suggested his honor.
"All right," she replied, but she looked

In the altercation over the letter the couple broke two windows in the house they rented, and they also indulged in some choice profanity, which was overheard by Policeman Waters of the fourth precinct, who arrested the couple.

NEW ORLEANS MARDI GRAS. King Momus Made His Thirty-Sixth

Appearance. Although there have already been half a dozen balls by the various carnival socleties, the popular celebration of the carnival of 1908 was ushered in at New Orleans last night with the parade of the Knights of Momus, ideal weather marking

Railroad traffic has been abnormally heavy into New Orleans during the month, and the hotels are already crowded. A noisy reception was given the battleship Texas, which arrived yesterday in command of Capt. G. A. Bicknell, and with Admiral F. W. Dickins on board. The torpedo boats Dupont and Porter had already arrived.

Momus last night celebrated his thirty-sixth entry into the city with a pageant of seventeen floats. A ball at the French Opera followed the pageant.

Miss Lizzie E. Wimbish, a native of Montgomery, Ala., and one of the best known southern female missionaries of the Pres-byterian Church in the orient, died yesterSee Them Sunday.
